# How To Use iNaturalist

Download iNaturalist on your smartphone
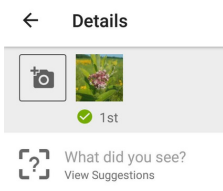

Make an observation of something in nature (plant, insect, bird, etc.)

Open the app and tap "**Observe**" or "**+**" to create a new observation

Using the app, take a photo(s) of your observation

Let the app help identify your observation. Tap "**What did you see? View suggestions**." Tap the best match and choose "**select**."

Tap the check mark to save your observation

Have fun!
